

About Us

A.V.S. di Fiore Massino & C.

Our Society, built in September 1999, is proposed to the attention of the Field operators with innovative, functional and adapted products for the entire sanitary and civil emergency sector.

Years of experience and the "cultural" evolution study of this delicate sector have inducted ourselves to deep search technical solutions that in their complex can satisfy the exigences and the essential needs, also in presence of catastrophic emergencies that , unavoidably, join all the sanitary, civil, military and voluntary organizations.

With this vision and according to the technical norms of the next edition, we have developed our productive programme considering the market exigences that evolves and the new technologies.

Society certified according to the norm UNI EN ISO:9001:2000
